

Everyone Has a Health Care Story – *Share your story with us*

The Minnesota Universal Health Care Coalition is collecting people’s health care stories. We want to illustrate, from the human dimension, what is wrong with our current health care system and, where applicable, how a single-payer universal coverage system would be beneficial. **Please use one of the prompts below to briefly tell us your story.** With your permission, these stories will be used in our print and electronic publications and during speaking engagements.

Share your experience with

- Dealing with the health care bureaucracy (example: trying to get insurance to pay for a recommended, or performed health care service)
- Rising premiums, co-pays and deductibles affecting your budget
- Being stuck in an unfavorable work situation because of the need for insurance coverage
- Being rejected for health coverage due to a pre-existing condition
- Out-of-Network care and providers
- Being uninsured or intermittently insured
- Being a provider in the current health care system – the challenges, the changes over time
- Experience with a single-payer system in another country

Tell us about you!

Name: _____ Address: _____

City, State, Zip: _____ Phone: _____

Email: _____ Occupation: _____

Employer: _____ Insurance: _____ Age: _____

Please let us know how we may identify you. Please mark **all** that you consent to:

You may share my story publicly, but please do not share any identifiable information about me publicly.

You may share the following identifiable information about me (I have marked **only** what I consent to):
